

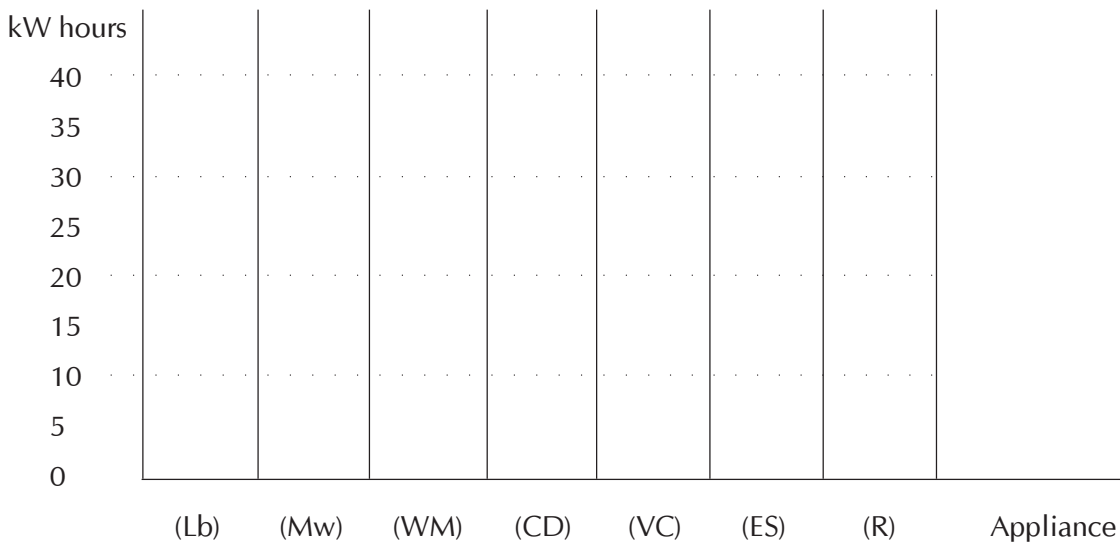

Graphing Energy Use

Complete this graph by drawing a bar to the same height as the number given below. The numbers show the average energy use, measured in kilowatt hours for each appliance, by a family of four.

(Lb)	Lightbulbs	= 42 kW hours
(Mw)	Microwave	= 9 kW hours
(WM)	Washing Machine	= 8 kW hours
(CD)	Clothes Dryer	= 12 kW hours
(VC)	Vacuum Cleaner	= 8 kW hours
(ES)	Electric Stove	= 15 kW hours
(R)	Refrigerator	= 15 kW hours

Which product/appliance uses the most energy? _____.

Write three things a family could do to reduce their use of electricity:

1. _____.
2. _____.
3. _____.
